Subject: Ironbound Super Neighborhood Council : Storm Water Run Off and Snow Disposal

This is an enquiry email via <http://ironboundsuperneighborhoodcouncil.org/> from:
Annie Ward <annacward@riverbankpark.org>

Hello Mr. Kluesner, Lenny Thomas told us we could find out the laws about dumping snow in the Passaic River from you. My friends and I were driving along the river after the las storm and saw trucks dumping loads of snow into the water. We thought that was illegal. It seems that even after we find out about the dangers of dumping waste into our rivers. Someone is still willing to do it again when no one is watching. My sister has contacted several other agencies, but they must be part of this. They have not answered. She plans to follow this up.

It makes no sense to fight so hard for clean water and have people throw more toxins in under the cover of dark!

Annie
